Allowable Subject Matter

Claims 2-11, 13-17, 19, 36-40, 42 and 44 are allowed.

The following is an examiner's statement of reasons for allowance for Claims 2-11, 13-17, 19, 36-40, 42 and 44: The best prior art of record, *Walker* neither discloses nor fairly suggests the limitations of profiling a plurality of sellers, based on types of items provided, industry type, payment methods used and shipping needs; providing to those sellers a macro for automatically uploading a catalog of items available for purchase, including minimum prices and order sizes for items; receiving from each of the plurality of sellers a bid for a supply commitment for an item, each bid including a plurality of supply prices for the item, each supply price corresponding to a quantity of the item to be included in an order; forming a collective purchase order from a plurality of purchase requests; and fulfilling at least one purchase request at a price lower than a purchase price included in a purchase request. Prior art was found which disclosed some of these limitations but these could not be reasonably combined to reject the claims.

The *Ogura* reference is cited for its teachings of catalogs.

The *Parity* reference is cited for its teachings of clearing prices.

The drawings are unacceptable as presented. Please see the enclosed PTOL-948.
